DirectX: Version 9.0

Network: Broadband Internet connection

Storage: 2100 MB available space

Sound Card: HD Audio driver

Additional Notes: Any Audio driver

English

Absolute garbage.. I hate to say this. This early access game was not ready for release. The screen size keeps changing as I access things. All I can do is run forward or sideways. The alt key that is supposed to let you have freelook does not work. The guide needs work, as when the guide to me to access craft. I would not go off my screen after I did. As with all early access games, I expect some issues, but to be unplayable is not acceptable. The developer needs to get the game working alot better.

I would suggest not buying this game at this time. Give the developer some time to get the game more playable. I was going to do a first look for my YouTube channel <https://goo.gl/r2uYrg> but was unable to do so based on the issues stated above.

[Jadwan. Mouse look doesn't work.](#)

[Can't interact with the, mostly empty, pointless, environment.](#)

[A waste of everyone's time, hilariously overpriced.](#)

[Early Access garbage.](#)
